Day 3: Sangumburi Crater – Seongeup Folk Village – Huerree Natural Park – Tangerine & Chocolate Factory –Yongmeori Coastal – ChilSungDong Shopping Street

【Sangumburi Crater】 An extinct volcanic crater filled with lush vegetation, the crater is densely packed with trees and shrubs; including magnolias, pine trees and maples. During autumn, the pampas flowers bloom all over the crater, making the views breath taking and romantic! The slopes of the crater will also be covered with Jeju's famous Eulalia flower and tall plume-like, gray flowers swaying in the breeze. **【Seongeup Folk Village】** The Seongeup Folk Village shows the unique culture of Jeju Island: the black lava rock walls, the straight but curvy alleys to block the wind, and the stone grandfather statues (Harubang), which have become a prime feature of the landscape. The local black-haired pigs and tongsi (pigsty / restroom) are especially well-known characteristics of Jeju folk culture. The Jeju black pork is said to be very nutritious. **【Huerree Natural Park】** One of the most beautiful parks on Jeju Island. Commonly known as “an island within the island,” it offers various seasonal programs: Apricot Flower Festival, Plum Harvest, and Orange Mandarin Harvest. Visitors can also feed baby pigs, rabbits, squirrels, and black goats. The park is full of colorful volcanic stone towers in the pine forest. **【Yongmeori Coastal】** It is an amazing landscape beach leading up to an impressive lava flow rock which has formed over time. There are sandstone piled over thousands of years, deep and cave rock formations with beautiful stacked layers, the scenery is simply spectacular. If you are lucky with good weather, look closely between the rocks to see the mussels growing alongside sea urchins and sea squirts. On the right coast is soft black sand beach.

Day 4: Jeju → Busan – APEC House – Skywalk Oryukdo – Gamcheon Cultural Village – BIFF Square (Busan International Film Festival Square) – Jalgachi Seafood Market

【APEC House】 Located on Dongbaekseom Island, noted for its beautiful natural landscape accented by dense camellia and pine trees. Nurimaru APEC House has been used as a memorial hall and a prestigious international conference hall since the APEC summit meeting. **【Skywalk Oryukdo】** Skywalk is an exciting seaside attraction located in Igidae Park. Skywalk is U shaped toward the sea, floats about 40m above the surface of the sea with look through glass, offering visitors a unique aerial experience. **【Gamcheon Cultural Village】** Dubbed as Korea’s Santorini, it provides visual delight to visitors with murals and art installations. This historically rich mountainside slum became a famous tourist destination after getting an arty makeover with clever touches up the stairs, down the lanes and around the corners. **【BIFF Square】** A cultural tourist attraction to promote the advancement of Korea’s film industry, the 428 meter-long street is divided into “Star Street” and “Festival Street”. **【Jalgachi Seafood Market】** Korea’s largest seafood market, try the fresh sashimi at own expense.

Day 5: Busan – Gyeongju – Bulguksa Temple – Cheonmachong – Cheomseongdae Observatory

【Bulguksa Temple】 The representative relic of Gyeongju and was designated as a World Cultural Asset by UNESCO in 1995. The beauty of the temple itself and the artistic touch of the stone relics are known throughout the world. **【Cheonmachong】** Twenty-three large tombs of the Silla Kingdom are located in Daereungwon Tomb Complex; Cheonmachong is one of the most famous one. There are 11,526 remains and royal crowns inside the tomb, demonstrating the lavish lifestyle of the king. You can feel the ancient culture of Korea 1,500 years ago when visiting. **【Cheomseongdae Observatory】** The oldest existing astronomical observatory in Asia. Constructed during the reign of Queen Seon-deok, it was used for observing the stars in order to forecast the weather. The Vernal Equinox, Autumnal Equinox, Winter Solstice, Summer Solstice and the 24 solar terms (also known as the astronomical solar year) were determined by the observation of stars. The pavilion stone is believed to have been used as a standard of deciding directions, north, south, east and west. The 362 stones used to build Cheomseongdae represented the 362 days in a lunar year.
